

B-3439 - B-3450

c.1840-1900

1138-1108 S. Charles St. (West side)

Baltimore, Md.

Private access

The west side of the 1100 block of S. Charles St. was originally improved with groups of two story plus attic and small three story, two bay wide, gable-roofed houses that served as combination residential/commercial structures. Only a few of these survive in their original exterior form (1134 and 1124 S. Charles St., which are two story plus attic houses, and 1114 and 1116 S. Charles St., which are three story, gable-roofed houses), the remainder having been enlarged and remodeled after the Civil War to a full three stories in height with shed roofs and bracketed cornices. All currently still serve a combined residential/commercial function. 1118-1120 S. Charles St. is a large three story, four bay wide brick building with shed roof and stepped roofline. The facade has been faced with cut stone and there is both brownstone and stamped sheet metal, Classical Revival style trim. This structure was built around the turn of the century to serve as a department store, as it still does today.

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This three story, two bay brick house with gable roof was built in the late 1840's-early 1850's and at one time formed part of a row of such houses extending along this side of Charles St. The first floor area of the house has been converted into a store-front with a pressed metal cornice.

The house is three stories in height, 15' wide, and occupies a lot 123' deep. There is a three story high, one bay wide and deep stair hall extension which connects the main house to a two story high, two bay deep rear addition. The house is constructed in running bond. The low-pitched gable roof has a two-tier brick cornice. There is a double rectangular chimney located along the south side of the front roof gable.

The second and third floor window openings have flat wood lintels and wood sills. The openings are currently boarded over. The first floor area of the house has been converted into a store-front. There is a glass paneled door set beneath a single light transom, located in the southernmost bay and flanked by a three-sided projecting plate glass shop window set on a stone base. A second door, leading to the former residence on the upper floors, is located in the northernmost bay of the house. A pressed metal cornice, somewhat Beaux-Arts in style, extends across the entire width of the store-front. The cornice consists of a deeply projecting crown molding set above a deep frieze area decorated with pressed metal swags. Two grooved end brackets, the upper edges of which terminated in stylized "anthemions," frame the cornice. The entrance to the store-front is reached by one wide stone step.
